

DefenceCorporation.lv: Strengthening National Security Partnerships

DefenceCorporation.lv represents the Latvian Defence Corporation, a collaborative alliance uniting key national defence enterprises to advance research, production, and innovation in defence technologies. The organization focuses on enhancing Latvia's defence capabilities through strategic partnerships, modernizing military equipment, and fostering technological self-sufficiency in response to evolving security challenges.

A comprehensive design and functional prototype was first developed to align with the corporation's branding and user requirements. Following approval, the full website was built, integrating intuitive navigation, secure content management, and responsive features to effectively communicate the corporation's mission, projects, and partnership opportunities
